FOR PANCREATIC CANCER

WHAT WE DO

ABOUT SKY FOUNDATION

More than 66,000 Americans will be diagnosed with pancreatic cancer this year. With a survival rate of just 13%, finding a cure is critical.

At Sky Foundation, we are committed to taking on this challenge. Our mission is to raise awareness and fund innovative research for the early detection and treatment of pancreatic cancer. We help life-saving research get off the ground, knowing that any one of the research projects we support could be the one that leads to the breakthrough that ends pancreatic cancer for good.

Through fundraising events, social media and unique public awareness opportunities we seek to educate and raise funding for pancreatic cancer research. We also stress the importance of genetic counseling, when to seek medical attention and potential risk factors and symptoms related to this disease. We have an ever-growing community with patients, survivors, family members, and loved ones that come together to support one another and our cause.

FUNDING SEED GRANTS

The researchers are the backbone of helping us find a cure to pancreatic cancer.

Sky awards seed grants for pancreatic cancer medical research, which provide initial funding to researchers for exploratory studies. These grants support innovative ideas, gather preliminary data, and encourage scientists to pursue their research further. Such funding plays a crucial role in kickstarting early-stage investigations and supports new approaches that will potentially lead to more significant research opportunities that may one day be the breakthrough to cure pancreatic cancer.

Sky is proud to have funded research at the following prestigious institutions:

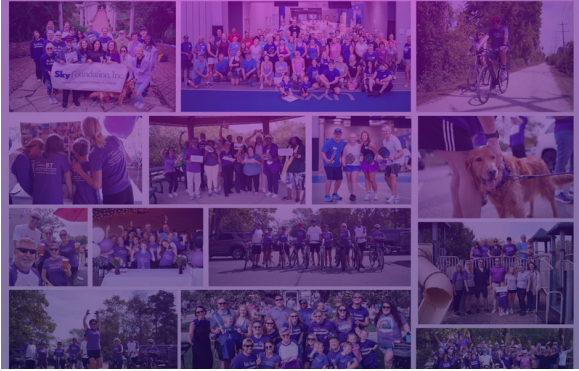

SKY'S ANNUAL EVENTS

2026

Join us and show your clients, customers and constituents that you are proud to support Sky Foundation in this battle. We offer a variety of opportunities to align your business with our mission and demonstrate your support.

We look forward to partnering with you!

THE SKY MOVEMENT

This is a powerful national initiative uniting countless participants to raise awareness and funds for pancreatic cancer research. Individuals rally family and friends, while businesses build team spirit and employee engagement.

From walking and running to biking, yoga, and more, the Movement is designed to be accessible anywhere. This year, we're introducing an in-person kickoff event to celebrate together and foster community among those impacted by cancer. Every step supports early detection research and life-saving programs.

DOCTAIL MIXER

Doctors and medical professionals trade their white coats for bar aprons, volunteering as "Doctenders" and crafting their favorite cocktails and mocktails. Guests sample, critique, and vote while enjoying appetizers, networking in a lively atmosphere.

Now in its third year, this signature event has doubled its revenue and is projected to grow again. This event has quickly become a must-attend evening blending philanthropy, entertainment, and connection in the fight against pancreatic cancer.

THE SKY GOLF CLASSIC: DRIVING TOWARD A CURE

Align your business with a meaningful cause while engaging in some friendly competition at our newly introduced golf tournament at Oakhurst Golf & Country Club. This is a great opportunity to bring together local companies, teams, and individuals to play for a purpose.

By sponsoring this event, your company will gain valuable visibility, foster team camaraderie, and showcase a commitment to making a difference in the community.

NIGHT SKY GALA

This is Sky Foundation's premier fundraising event, bringing together 350+ influential supporters, healthcare leaders, executives, and corporate partners. This high-profile evening offers meaningful visibility and networking opportunities.

Hosted at the elegant Saint John's Resort, the event features raffles, auctions, cocktail hour, and a formal dinner—creating a dynamic atmosphere for brand exposure, relationship building, and alignment with life-saving cancer research.
